**Instructions:**

1. Enter window sizes from specification sheet. If you don't have, measure window width and height
2. Determine square footage of each window: Length x Width, divide by 144  
ex: 6 foot doorwall 72 x 80  
 $72 \times 80 = 5760 / 144 = 40$  total square feet
3. Total square footage at bottom
4. Check Package Purchased
